WorléeCryl L 241

Art.-No. 112003-00386

Revision: 09.03.09

W´Cryl L 241 is a neutral, physically drying, low odour acrylic resin, mainly for the use in wall and ceiling paints.

Technical Data:

Non volatile content, 1h/125 °C, DIN EN ISO 3251	60% ± 1
Appearance	clear to light opaque
Viscosity, 20 °C, 40% isoparaffin. HC 170 - 200, DIN 53211-4	80 - 120 s
Delivery form	60% in isoparaffin. HC 170 - 200

Solubility:

W´Cryl L 241 is completely soluble or dilutable respectively in white spirit and isoparaffines (Isopar H, Isopar J - Exxon)

Application and Properties:

W´Cryl L 241 is a soft acrylic resin. Additional plasticizers are not necessary.
W´Cryl L 241 is especially suitable for the manufacture of wall and ceiling paints.

Wall paints based on W´Cryl L 241 are of low odour and show good application properties.

The paints are isolating against water soluble nicotine, fume and chimney spots. Substrates sensitive against solvents like e.g. polystyrene are not attacked by decorative paints based on W´Cryl L 241 and isoparaffines.
